## PROFILE

Hi, I am Petar Atanasovski, a 21-year-old programming enthusiast coming from Bitola, Macedonia.

I'm an ambitious individual committed to constant self-improvement in various fields. I take full responsibility for my development, working hard and finding satisfaction in my achievements. While I value education, I believe personal development extends beyond it, embracing a wider range of factors.

I have always been a computer fanatic but in the past 3 years I have seriously stepped into the world of computer science. Learning new things has been part of my daily ritual, and for me the best way to do that is by developing interesting new projects in fields that intrigue me, you can see more in my website's portfolio section.

Beyond the digital domain, I can say that I am a successful sportsperson, who has won some national skiing competitions and has played
